

# RUMBA

## Research for Undergraduates: Adventures in Mathematical Biology and its Applications

### About

The RUMBA program at OSU is a National Science Foundation (NSF) funded initiative to facilitate undergraduate research at the interface of mathematics and biology. OSU undergraduates have the opportunity to participate in the program in various ways, ranging from enrolling in newly-developed coursework to working as an Undergraduate Research Fellow (URF) in an intensive, funded research experience.

### Opportunities

Participate in the **Undergraduate Seminar in Mathematical Biology:**

Tuesdays, 1:30-2:18pm, Jennings Hall, room 214, one credit hour

EEOB 293 (section 0250), Call no. 23184 or Math 693 (section 0690), Call no. 15275

Become an **Undergraduate Research Fellow (URF):** a paid two-year research experience in an interdisciplinary area with joint mentorship by faculty in Mathematics/Statistics and Biology

Take part in activities to help you prepare for graduate school: GRE preparation, Assistance with graduate school applications
